MOHAMMAD KHORAJIYA

JAVA BACKEND DEVELOPER

+91 87802-70802 | Gmail | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Java Backend Developer with hands-on experience developing secure REST APIs using Java, Spring Boot, and Spring Security. Skilled in JWT authentication, RBAC, MongoDB, Redis caching, asynchronous processing, external API integration, and automated testing.

TECHNICAL SKILLS

Programming: Java 8+, OOP, Collections, Streams, Lambdas, Multithreading

Backend: Spring Boot, Spring Security, Spring Data MongoDB, REST APIs, JWT Authentication, RBAC

Database & Caching: MongoDB, Redis

Testing & Tools: JUnit 5, Mockito, Maven, Git, GitHub, Postman, SonarQube, Swagger / OpenAPI, Render, IntelliJ IDEA

PROFESSIONAL EXPERIENCE

Java Backend Developer Intern | Pulse Circle – Remote Mar 2026 – May 2026

- Developed secure REST APIs using Java, Spring Boot, and Spring Security with stateless JWT authentication and role-based authorization.
- Designed MongoDB data-access layers using Spring Data MongoDB, including indexing and aggregation queries.
- Developed unit and integration tests using JUnit 5 and Mockito; supported API testing, SonarQube analysis, and Render deployment.

PROJECTS

Bhadas AI – Intelligent Prompt & AI Service API

Java | Spring Boot | WebClient | REST APIs | Generative AI

- Integrated Generative AI APIs with prompt processing, sanitization, and structured response handling.
- Implemented non-blocking external API communication using Spring WebClient with retry and rate limiting.

GitHub | Live / API Documentation

JournalApp – Secure Journal Management API

Java | Spring Boot | Spring Security | MongoDB | Redis

- Developed a secure REST API with JWT authentication and role-based access control.
- Integrated MongoDB and Redis caching with automated testing using JUnit 5 and Mockito.

GitHub | Live / API Documentation

Task Assignment System – Asynchronous Task API

Java | Spring Boot | Spring Security | MongoDB | JavaMailSender

- Developed a task-assignment REST API with JWT authentication and role-based authorization.
- Implemented thread-safe synchronization using ConcurrentHashMap and asynchronous email notifications using Spring @Async.

GitHub | Live / API Documentation

EDUCATION

Bachelor of Computer Applications (BCA) 2023 – 2026

Hemchandracharya North Gujarat University (HNGU) **CGPA: 6.47**

CERTIFICATION

Java Backend Development Internship Certification 2026

Pulse Circle – Remote
